

# Bisleri x PivotRoots Campaign

## Objectives

Bisleri is one of the oldest and most trusted brands in India. It has been a household name for decades with a wide reach that no other mineral water brands have been able to surpass. To further amplify that reach & to keep up with the trends, the brand outlook needed to draw new customer touchpoints with the launch of a revamped website and mobile app. We set up the following objectives to achieve that:

- ❖ Creating an enhanced Customer Data Platform (CDP) and building a product-based marketing stack.
- ❖ Optimizing customer experience through varied funnels.
- ❖ Retaining customers with feedback campaigns – Targeting them at the right time with the right message via renewal and subscription campaigns.

# Overall Strategy & Execution

Creativity	Innovation	Automation
<ol style="list-style-type: none"><li>1. Bisleri website UI/UX design &amp; development with <b>better sitemap and tools.</b></li><li>2. A customer journey designed with e-commerce, account registration, and other touchpoints on the website, making it easier for the user to navigate and shop. The design is such that it motivates the customer to buy.</li></ol>	<ol style="list-style-type: none"><li>1. Data ecosystem development for Bisleri doorstep delivery &amp; logistics.</li><li>2. Creating a custom Customer Data Platform (CDP) for <b>seamless access to customer preferences and propensities.</b></li><li>3. Monitoring the dashboard for delivery TATs which can be optimised &amp; moved using data technology.</li><li>4. <b>Encashing owned and paid channel operations.</b></li></ol>	<ol style="list-style-type: none"><li>1. Driving integration with digital campaigns and owned channels.</li><li>2. Activating paid ad marketing campaigns to drive retention of old customers and onboard new customers.</li><li>3. Outlining automated and smart campaigns to drive business KPIs &amp; marketing technology stack for the new website/app ecosystem.</li></ol>

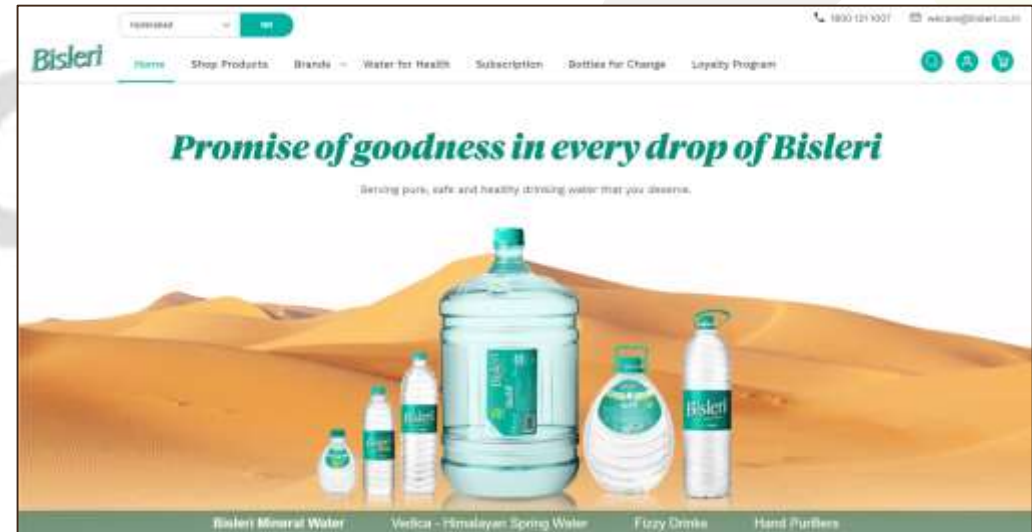

# Creative

**Website design simplified:** From a rough, haywire interface that made it hard for customers to locate information, we developed a tactile & fluid UI/UX design to help customers navigate easily. We introduced e-commerce pages to enable them to order Bisleri products from the comfort of their homes.

Before

After

## Innovation - Faster Delivery – Operational Logistics:

Home deliveries for Bisleri are now more efficient thanks to our digital infrastructure that gives real-time visibility to the consumers as well as the delivery partners and retailers.

To achieve real-time visibility, we set up a platform where users can interact with the **platform on-the-go** and everything was **push-based** instead of the user having to navigate through multiple panels. To enable quick delivery, an engine was designed to identify the best possible delivery partner for each order. The engine considered more than **15 parameters** to identify the best delivery partner. A few of them were:

- Proximity to the order location
- Own vehicle or external service agent
- Cost-effectiveness
- Previous feedback from customers
- Availability of the agent
- Acceptance to delivery TAT of previous orders
- Current pending orders
- Sales manager ratings

# Setting up Automated and Smart Campaigns to drive Business KPIs

**Increase conversion**

## **Onboarding Campaigns**

**Implementing automated onboarding campaigns with messaging that targets leads and converts them into customers.**

**Optimize sales processes**

## **Funnel Campaigns**

**Automated Email, Push, WhatsApp & SMS campaigns based on consumer funnels such as Cart abandonment, Failed payment, Payment reminder and Product view abandonment.**

**Manage Customer Lifecycle**

## **Lifecycle Campaigns**

**Automated Email, Push, WhatsApp & SMS campaigns based on consumer funnels such as One-time orders, Subscription Renewal, Upgrade to subscription and more.**

**Boost marketing effectiveness**

## **Retention & Feedback Campaigns**

**Automated Email, Push, WhatsApp & SMS campaigns for App rating/review & Genuine mark survey.**

Note: All of these are omnichannel campaigns based on customer preferences
